Duration: 12 Days, 9 am to 5:30 pm on all days

Target Audience: The NEBOSH Certificate has been designed for managers, supervisors and employee representatives and is ideal for anyone who wants to establish a career in health and safety and others who require a knowledge and understanding of health and safety principles and practices. The Certificate provides a sound basis for evaluating risks and hazards in any country, in any business. The NEBOSH International General Certificate is also suitable for those embarking on a career in health and safety, providing a valuable foundation for further professional study.

NEBOSH:

The National Examination Board in Occupational Safety and Health has a reputation that is second to none for the provision of academically rigorous training, which is why it is still the preferred awarding body for many sectors. NEBOSH offer a wide range of professional qualifications, all of which provide the perfect grounding for a career in health and safety of workplace hazards.

DAS-STCI currently offer two NEBOSH International Courses.

- NEBOSH International General Certificate in Occupational Health & Safety
- NEBOSH International Diploma in Occupational Health & Safety

NEBOSH International General Certificate in Occupational Health & Safety

SYLLABUS DETAIL:

Unit IGC1: Management of International Health & Safety

- Foundations in health & safety
- Policies
- Organizing for health & safety
- Promoting a positive health & safety culture
- Risk assessment
- Principles of control
- Monitoring, review & audit
- Occupational incident and accident investigation, recording and reporting.

Unit IGC2: Control of International Workplace Hazards

- Manual & mechanical handling – Hazards & control
- Work equipment - Hazards & control
- Electrical - Hazards & control
- Fire - Hazards & control
- Chemical & biological health - Hazards & control
- Physical & psychological health - Hazards & control
- Construction activities - Hazards & control

Unit IGC3: International Health & Safety Practical Application

- The completion of a health & safety assessment of a workplace and report management

Benefits:

The NEBOSH International General Certificate will benefit organisations operating outside the UK, and multinational companies working to international standards who are seeking to implement good health and safety management across all areas of their operation. Ensuring that line managers have a sound understanding of the

principles of managing risk is a key building block of an effective safety culture. The choice of course format can allow employers to fit training around the needs of the business. Many of NEBOSH's training providers will offer courses in company, which allows for material reflecting the organization's own systems of work or hazards to be included.

Entry Requirements for NEBOSH Diploma:

The NEBOSH International Diploma syllabus assumes a broad basic knowledge of health and safety. The Diploma is assessed at Level 6 (UK Qualifications framework) which is the same standard as a Degree program. It is therefore highly recommended that those seeking to start the Diploma should have achieved a NEBOSH Certificate (or equivalent Level 3 qualification in health and safety) before starting the Diploma Program.

How is the course assessed

Candidates are assessed by two written examinations and a practical assessment. The practical assessment checks your ability to put into practice the knowledge gained during the course.
