- Measure the Efficiency and Effectiveness of a Process
- Identify and Record Non-conformances
- Outline the Responsibilities of the Auditor

At the end of the course the participants should be able to:

- Undertake supervised audits of OHSAS to the standard of internal/third party certification
- Act as OHSAS auditors/assessors.
- Understand the relevant national/international OHSAS law framework

OHSAS IRCA Certificated Training:

IQMS-UK is an approved Training Organisation with the IRCA (International Register of Certificated Auditors), and offers the IRCA approved QMS, EMS, OHSAS, FSMS, and ISMS Auditor/Lead Auditor Course.

All IQMS tutors are broadly experienced; IRCA qualified Lead Auditors, in current practice and high standard professional lecturers. The course includes provision of all the training materials, including a comprehensive Delegate's Notes Manual. There is a written examination, set by the IRCA, on the last day of the course, in addition to continuous assessment based on the practical exercises as well as the work and contribution during the course.

IQMS "OHSAS 18001:2007 Lead Auditor" course focuses on teaching students & professionals an effective approach for auditing occupational health and safety (OH&S) management systems. The primary objective of this training course is to instruct OH&S auditors in the principles and practices specific to auditing for conformance with OHSAS 18001:2007.

Students will be assessed by a written exam and through a continuous assessment process that examines the daily performance of the student. This course is registered by IRCA and meets part of the training requirements of those seeking registration as a lead auditor under that scheme.

Delegates receive comprehensive course manuals with reference materials, including a copy of OHSAS 18001:2007, ISO 18002 and a copy of ISO 19011:2002
